

Watch HighDef TV Online

Did You Know?

- *XFINITY On Campus* HD TV programming is available to campus residence hall students via TV, computer and mobile devices. In addition to live streaming of cable content, XFINITY offers a DVR (digital video recording) feature. Residential students may save up to 20 hours of recorded programming after logging in to the XFINITY ON CAMPUS web site.

SPU provides TV service in the residence halls and apartments from **Comcast**. Students who currently live in on-campus housing will be able to watch TV online on their personal computer, through Roku devices, and with select Apple or Android tablets or smartphones using the **XFINITY On Campus** app. Students can also watch On-Demand movies and events, and even record programs via the cloud-based DVR service.

XFINITY On Campus offers additional subscription programming (movies and sports) packages as an optional monthly add-on (your expense).

Access XFINITY On Campus Using Your Computer

1. Connect to the campus network, open a web browser and go to xfinityoncampus.com.
2. Select **Seattle Pacific University** from the drop down list and **Login** with your SPU Username and Password.
3. After signing in, you will be taken to the *XFINITY On Campus* storefront, where you can watch live TV, On-Demand channels, and upgrade to a Premium Subscription.
4. You may register and use the service on up to three devices. Manage your devices from the XFINITY On Campus storefront.

Access XFINITY On Campus via Mobile Device Native Apps

1. The "XFINITY Stream" mobile app is available for IOS and Android devices at their respective online stores.
2. After downloading the app, select **Seattle Pacific University** from the drop down list and **Login** with your SPU Username and Password.
3. Once authenticated, you will be taken to the *XFINITY On Campus* storefront, where you can watch live TV, On-Demand channels, and upgrade to a Premium Subscription.
4. You may register and use the service on up to three devices. Manage your devices from the XFINITY On Campus storefront.

Access XFINITY On Campus via Roku

1. If you have a large screen TV with an HDMI connection, you may access *XFINITY On Campus* by purchasing and installing a Roku device: the Roku connects to the campus network and the TV connects to the Roku (typically via HDMI). Note: Roku Premium+ or Roku Ultra+ devices are preferred as these have wired Ethernet connections. Wired connections will provide a more robust viewing experience during times of high wireless utilization.
 1. If connecting via wired connection you will need to first request to have [activate an Ethernet jack in your room](#).
 2. If connecting via wireless, you will need to [manually register the Roku device](#).
2. Once connected to the network, go to the Roku Channel Store and add the "XFINITY Stream" channel.
3. Launch the *XFINITY Stream* channel and note the 6-digit authorization code.
4. In a web browser on a Mac or PC, go to <https://www.xfinity.com/authorize> and enter the 6-digit authorization code from the previous step.
5. You will be directed to an XFINITY login page. Near the bottom of the page, click "XFINITY on Campus Students Sign in Here."
6. When prompted, enter your full SPU Username and Password (email address and password).
7. Once all of this is complete your Roku should be ready to go. Launch the *XFINITY Stream* channel to access the programming menu.

Access XFINITY On Campus Using Select Samsung Smart TVs

XFINITY is developing native apps for many commercial grade SmartTVs. Currently, the only native offering they have is for certain Samsung Models. [More details are provided here](#).

Premium Subscriptions

Additional program subscription channels may be purchased directly from Comcast/XFINITY. Prices and program selections are provided by the vendor. Billing is month to month and auto-renewing. All billing questions (for paid subscription services) should be directed to Comcast. Some of the subscription programming may only be available while on-campus. During breaks from school or upon leaving residential housing, it is recommended that you cancel your subscription to avoid paying for a service you cannot use when off campus.
