

# INTERLINK Student Printing

INTERLINK Students are now able to swipe their ID card on MFPs for logging in and releasing print jobs. Students only need to add funds to their account if they want to print or copy at a device. Students may submit jobs from any open SPU Kiosk Computer in Weter, the Library, or SUB) to be released at any of the **MFP Public Locations** on campus. If students only want to scan files or books they will not need to load Falcon Funds or purchase a print coupon.

Information about the SPU ID Card and how to load Falcon Funds may be found on the **Campus Card Services** website.
