

SPU User Policies

Seattle Pacific University technology policies, procedures and guidelines exist to maintain, secure, and ensure legal and appropriate use of campus information technology resources. Information technology resources and access are provided for purpose of fulfilling official business and the academic functions of the University. Policy seeks to place security and privacy policy specifics in service of each other in order to provide the campus community with a high quality, trusted and secure campus computing environment, and as a means of protecting and securing its property interests, data and intellectual property. These policies, procedures, and guidelines describe the expectations and responsibilities of all community members in the use and support of campus information technology resources.

Please reach out to CIS if you have any questions about policy, procedures, or guidelines or if you'd like a member of CIS to come present on a topic to your campus group, committee or association.
