

Reset Google Chrome

1. Click on the wrench button in the top right hand of your screen
2. Click on **Settings**. This should bring up a new tab with Chrome settings in it.
3. Scroll to the bottom and click on **Show Advanced Settings**
4. Click on **Clear Browsing Data**, under **Privacy**
5. Make sure every box is checked
6. Select **From the beginning of time** in the drop-down menu at the top
